Brand New Business

Camperdown Health & Hygiene has been busy, busy, busy as can be seen below.

Carnival City Mall

Camperdown Health & Hygiene has just concluded an extension to its cleaning contract at **ANAPROP** Carnival City mall. This mall is now one of the bigger malls in the area and Camperdown is proud of its relationship with the modern new mall.

We operate a 24 hour service at the mall and have already been lauded for our professionalism.

There is great excitement with Maureen and Adel, our staff responsible for the malls, on the other prospects that are in the pipeline. Watch this space!

Assmang Chrome Foundry

Situated near Machadadorp in Mpumalanga, **Assmang Chrome Foundry** has just contracted **Camperdown Health & Hygiene** to supply them with deep cleaning and hygiene services.

Needless to state, our sales people in Mpumalanga are chuffed with this coup and strut around like prize roosters. We have now appointed a dedicated, trained team to provide this client with our typical superior service.

Anglogoldashanti: Savuka

Camperdown Health & Hygiene will shortly place its first sanitation staff at **Savuka** shaft at Carletonville to perform underground sanitation. This will be a new chapter in the Camperdown book of achievements and fills us with great expectations for the future.

Hello 21st Century

To ensure that all our services remain at the highest possible level, we review it in an on-going fashion. After thorough research, we have now identified advanced cleaning equipment and related processes that will best address our aim of effectively eliminating bacteria, using state of the art equipment together with environmental friendly products.
