

**CAMPERDOWN**  
HEALTH & HYGIENE

A cleaner today for a better tomorrow

## Healthcare Equipment & Matting

Camperdown Health & Hygiene supplies, installs and maintains a wide variety of equipment which has been extensively tested in operational conditions. The functions of the equipment are constantly researched and upgraded in order to meet the needs of the market. Our servicing of the rental equipment ensures optimum delivery at the same time ensuring replacement of equipment that may be faulty.

Some of the equipment that we supply is:

### Air fresheners

We use sophisticated and intelligent dispensers with complete programmability allowing the control intensity. The fragrance can be determined by our customers and regular servicing prevents extended down-time.

### Sanitary bins

The servicing introduces a safe, effective germicide, incorporating a natural enzyme which combats harmful bacteria.

### Soap dispensers

Dispensing concentrated soap with our equipment guarantees a non-clog, non-drip operation resulting in a reliable operation.

### Paper systems

We can provide both toilet paper and paper towel in dispensers which are lockable. We use only high grade white paper.

### Waste paper receptacles

The installation of this equipment in identified areas ensures uncluttered floors, projecting a hygienic environment.

Camperdown can install and maintain a wide variety of equipment on request.

### Matting

Camperdown Environmental Services can supply and maintain:

- Logo mats
- Entrance mats
- Industrial mats
- Grease mats
- Dust mats
- Runners
- Safety mats
- Speciality mats

Properly installed and maintained mats will reduce dirt and moisture being tracked into a building, provide non-slip areas where required (e.g. kitchens).

We can supply any size, colour and logo required.
