

A cleaner today for a better tomorrow

Corporate Profile

Since its inception in 1996, Camperdown Health & Hygiene has become the definitive name in the field of sanitation. The values the founder subscribed to during the start-up years namely honesty, quality and unsurpassed service delivery have been infused in all staff at Camperdown who has adopted this uncompromising approach.

Camperdown researches new or improved methods and products in an ongoing fashion with a view of improving its existing service. Liaison with existing clients enables Camperdown to introduce processes that are unique to the needs of our clients. We do not believe that all customers are the same.

Camperdown Health & Hygiene undertakes to at all times, maintain its integrity, respect its customers and operate in such a manner that customers, their staff as well as our own staff are safe and secure.

Chemical Deep Cleaning

Camperdown performs deep cleaning functions in toilets, urinals, showers and change rooms and has a proven track record in maintaining high levels of sanitation, ensuring a healthy germ-free environment which should be the entitlement of all staff, independent of the working conditions.

Office Cleaning

Camperdown endeavours to exceed expectations attached to office cleaning functions. We strive to maintain an exceptional standard and provide constant supervision during cleaning functions, thereby eliminating the possibility of sub-standard performance.

Healthcare Equipment Rentals

Camperdown supplies, installs and maintains a wide variety of rental equipment which have been stringently tested in operational conditions. The functions of equipment are constantly researched and upgraded in order to address the changing needs in the market. Our servicing of rental equipment ensures optimum delivery.

Portable Toilets

Camperdown supplies and maintains portable toilets, both on the surface and underground. When used in conjunction with sanitation bowsers an even more efficient service is achieved.

Chemicals

Camperdown uses only tried and tested chemicals. These chemicals are selected for their effective treatment for the conditions which may prevail. Our chemicals are also environmentally friendly.

Pest Management

Camperdown will identify and treat pests in all areas where a threat is posed to the health of staff who work or live in infested areas, using recognised application methods and poison.

Matting

Camperdown provides matting services which include mats for the commercial, retail and industrial sectors.
